

WPPI Energy is a regional power company serving 50 customer-owned electric utilities. Through WPPI Energy, these public power utilities share resources and own generation facilities to provide reliable, affordable electricity to more than 190,000 homes and businesses in Wisconsin, Upper Michigan and Iowa.

WPPI ENERGY SPEAKERS BUREAU

The ever-changing electric power industry is both complex and interesting in nature. WPPI Energy is here as a resource for information on subjects that will be of unique interest to your community group or organization. The Speakers Bureau is comprised of WPPI Energy staff with expertise in power supply, operations, technology, marketing and much more!

About Us

WPPI Energy is a regional power company serving 50 customer-owned electric utilities in Wisconsin, Upper Michigan and Iowa. WPPI Energy was formed in 1980, when 23 Wisconsin municipalities established WPPI Energy as the state's first joint action agency. Throughout the years, membership has grown considerably because utilities have recognized the power of working together. WPPI Energy is now one of the larger utilities in the region with annual revenues of \$406 million and assets totaling \$683 million.

It is WPPI Energy's mission to secure and maintain a diverse and reliable power supply portfolio, including renewable resources, to meet the long-term electric needs of members and their customers; and to help member utilities provide excellent service to customers at competitive rates.

WPPI Energy serves as effective advocates for our members and public power in local communities and throughout the region. We are here to help spread the joint action message while providing industry leadership and business-related services that allows members to concentrate on operating efficiently and providing high-quality electric service to customers.

- WPPI Energy power supply - planning and generation resources
- Energy efficiency and conservation - Helping customers save energy and money
- Renewable energy - WPPI Energy resources and programs
- Plug-in hybrid electric vehicle technology and car display
- Economic development and how your utility can help
- Rate issues - understanding rates and your power bill
- State and federal legislative and regulatory issues

Scheduling a Speaker

If your organization or group is interested in hosting a speaker from WPPI Energy for your daytime or evening program, please contact us at least two weeks prior to the engagement.

We will work with you to select a speaker that will suit your needs and arrange for a member of our staff to attend your local function. There is no charge for a presentation.
